Response to Notification of Missing Requirements

Commissioner of Patents
P.O. Box 1450
Alexandria, VA 22313

Sir:

A Notification of Missing Requirements was mailed February 22, 2007 requesting a translation of the application into English as the translation supplied at the time of filing was found defective by the Office. A copy of the Notification is included with this response.

To complete this filing, we are now submitting:

- 1) English translation of the international application
- 2) marked up copy of the substitute specification
- 3) Preliminary Amendment

Applicant would like to bring to the Office's attention that at the time of filing the application, applicant supplied a clean copy of the substitute specification and erroneously identified it on the 371 transmittal as the English translation. An accurate literal translation of the international application is enclosed. While the document previously submitted can be

used as a clean substitute specification, please disregard the claims in that document in favor of the enclosed preliminary amendment, which properly amends the claims. The substitute specification and the marked up copy of the substitute specification contain no new matter.

Respectfully submitted,

A handwritten signature in black ink, reading "David R. Price". The signature is written in a cursive style with a large, looping "D" and "P".

David R. Price
